ORAL PATHOLOGY

Services Provided:

- Routine histologic evaluation of all inflammatory and neoplastic oral lesions
- Histochemical stains (PAS, GMS, Fontana-Masson, iron, elastic stain, Congo Red, AFB, Fite)
- PAS (Periodic acid-Schiff) stain for rapid diagnosis of oral candidiasis
- Immunohistochemistry (over 50 antibodies)
- In-situ hybridization
- Direct immunofluorescence (C3, IgG, IgA, IgM, fibrinogen)
- Second opinions and back-up coverage provided by Dr. Sook-Bin Woo, DMD, MMSc, Associate Professor, Department of Oral Medicine, Infection, and Immunity, Harvard School of Dental Medicine (Boston, MA); Co-Director, Center for Oral Pathology, StrataDx (Lexington, MA)

The Tripoint Difference:

- Physician-owned and operated independent laboratory with concierge-like service
- All specimens “grossed” by an ASCP-certified Duke University-trained Pathologists’ Assistant (each having a Master’s degree in Health Sciences)
- 24-hour turnaround time (or within 1 business day) after date of receipt for routine specimens
- Easy-to-read pathology reports with emphasis on accuracy and clarity in diagnosis
- Malignant diagnoses reported in “red”
- Phone call to clinician for unexpected malignancies, metastatic tumors, and other time-sensitive diagnoses
- Pictures (photomicrographs) with captions on reports if desired
- Diagnoses explained and treatment recommendations provided when applicable
- Results via Tripoint web portal, hard copy, fax, secure email, or EMR connectivity
- Direct access to pathologist, available 24/7 to discuss results or concerns
- Specimens transported to lab by either in-house courier (on-call), business reply mailers for dry nail specimens (USPS), or FedEx
- Dedicated account manager assigned to your practice
- Readily accessible office manager available during business hours
- Most commercial insurance plans as well as Medicare and Medicaid and self-pay patients are accepted
- Compassionate billing
